

SAP S/4HANA Cloud 1811 Show & Tell – Cloud Implementation Portal

Follow up on open questions

Submitted Questions	Answer
does the portal support multi language?	The implementation portal for the Cloud is English at this time.
Is there some connection to Solution Manager?	<p>SAP Cloud ALM and SAP Solution Manager are two separate ALM offerings</p> <p>SAP Cloud ALM is a brand-new SAP offering for the cloud and in the cloud. The focus is on different target customers, mainly cloud-only, cloud first and cloud-centric customers. It provides those ALM functions that are required in the cloud. And it has the goal to manage the life cycle of the intelligent enterprise suite.</p> <p>SAP Cloud ALM is not an SAP Solution Manager in the cloud. But it would be fair to say that SAP Cloud ALM carries relevant functionality of SAP Solution Manager into the Cloud that is still needed by cloud-centric customers.</p>
Will this be used only for projects started after 1811?	The CALM with the implementation portal for the Cloud will be available with 1811
For the integration stream, if you customer integration scenarios, can we add them to the tasks required to be completed?	In the implementation portal for the Cloud you can add manual tasks to deal with your cloud project work.
How does the multiple country/legal entity activation covered/handled in Activate scope	<p>Please make use of the following SAP Activate guidance "Add new countries" - Extend Solution to Include a New Country</p> <p>https://go.support.sap.com/roadmapviewer/#/group/BE47098A-617A-43EF-A27E-DFD801D70483/roadmap/IMPS4HANACLDENMGMT:901B0E6D3F501EE6ABB4713604755B4A/node/901B0E6D3F501ED7BC814FE8B5F94DE5</p>
Is this available in multitenant version of cloud as well?	The implementation portal for the Cloud is multi-tenant and supports S/4 HANA Cloud multi-tenant.
Hi Jan - Who kicks off the CIP process to the project team (PM, Consultants etc.)? Is it the CEE?	The invitation via email to the implementation portal for the Cloud works equal, as it works for S/4 HANA Cloud. As soon as the project lead has access to the portal he usually invites the project team to the project.
